Summary

Senior Web Engineer and HTML/Markup Developer with over 7 years of experience in developing efficient, fast, and adaptive interface layouts using HTML5, CSS3, and JavaScript. Expert in cross-browser compatibility, UI/UX design principles, and CSS/JS animations. Also, highly skilled in React.js, Next.js, TypeScript, and Tailwind CSS, specializing in scalable web applications with a focus on optimizing user experience, accessibility, and performance. Experienced in HTML email templates, template engines (Twig, Pug), and advanced animations with GSAP. Passionate about collaborating with developers and designers to introduce innovative solutions and optimize products in dynamic environments like Fintech and Marketing.

Skills

- HTML5, CSS3, Sass, Less, JavaScript (ES6+)
- CSS/JS Animations, GSAP, Canvas API
- React.js, Next.js, TypeScript, Tailwind CSS
- UI/UX Design, Cross-Browser Layout, Performance Optimization
- Figma, Sketch, Photoshop
- Front-End Build Tools: Webpack, Gulp
- Template Engines: Twig, Pug, Handlebars
- HTML Email Templates, Responsive Design, Cross-Client Compatibility
- Content Management: Contentful CMS, Webflow, Craft CMS, Sanity CMS
- Other: Node.js, PHP, RESTful APIs, Agile Methodologies, Technical Writing

Experience

ß

Senior Web Engineer	Gamdom	Jan 2026 – Present
----------------------------	---------------	--------------------

- Developed and maintained web applications and user-facing features for the Gamdom platform.
- Collaborated with cross-functional teams to design and implement responsive, high-performance interfaces.
- Wrote clean, scalable, and maintainable code following best development practices and standards.
- Identified and resolved bugs and performance issues to ensure a seamless user experience

Fullstack Web Developer	Fira Health	Jul 2025 – Dec 2025
--------------------------------	--------------------	---------------------

- Managed the fullstack development lifecycle of the corporate web experience, from initial concept and design collaboration to deployment and ongoing maintenance.
- Collaborated with developers and designers in Figma to improve UI/UX, introducing ideas and solutions for product optimization.

- Implemented CSS/JS animations for interactive elements, enhancing user engagement and interface intuitiveness.
- Optimized web application performance through code refactoring and build tools, reducing load times significantly.
- Managed full lifecycle of web experiences, including migration to scalable architectures and integration of real-time features.

Product Engineer / HTML Email Developer Opentape Aug 2024 – Jul 2025

- Crafted responsive and adaptive user interfaces with Tailwind CSS, JSX, and Next.js, focusing on UI/UX design and cross-device accessibility.
- Built and customized HTML email templates using template engines, ensuring compatibility across email clients and performance optimization.
- Implemented interactive CSS/JS animations and elements using libraries like GSAP, resulting in a more engaging product interface.
- Collaborated with cross-functional teams to design new features, optimize workflows, and integrate APIs for efficient data flow.
- Developed algorithms for data handling and performance improvements, addressing complex requirements in web applications.

Senior Frontend Engineer / Markup and Animation Specialist Interswitch Group Jul 2022 – Sep 2024

- Developed over 20 high-performance landing pages with HTML5, CSS3, Sass, and JavaScript, incorporating advanced animations for enhanced user engagement.
- Created dynamic, responsive websites and SPAs using React.js and Next.js, with a focus on cross-browser layout and UI/UX improvements.
- Developed HTML email templates and newsletters using HTML and build tools, optimizing for performance and compatibility.
- Collaborated with backend teams to implement caching and optimization strategies, reducing response times by 50% and improving speed by 15%.
- Used Webflow in building external client partners websites.
- Utilized TypeScript and Contentful CMS for robust applications, while authoring technical documentation to support team processes.

Technical Writer Hackmamba Aug 2020 – Dec 2022

- Created comprehensive technical documentation and templates using Craft CMS and Twig, simplifying complex concepts and enabling efficient adoption.
- Authored numerous articles and guides on software features, incorporating markup best practices for web content.
- Developed checklists for UI/UX and performance optimization, supporting team training on new technologies.

Web Developer Get2work Aug 2018 – May 2021

- Built web systems with adaptive HTML/CSS layouts and JavaScript, improving customer retention by 20% through optimized interfaces.

- Designed reusable code libraries and HTML email templates, utilizing Sass for styling and ensuring cross-client compatibility.
- Integrated front-end technologies with backend services for real-time updates, focusing on performance and UI/UX enhancements.
- Conducted SEO and keyword research to improve traffic, collaborating with stakeholders to introduce innovative solutions.

Frontend Developer / UI Markup Specialist **Shecooks.ng** Sep 2019 – Jan 2022

- Revamped websites using React.js and mobile-first strategies, creating modular, responsive layouts with modern CSS and animations.
- Applied UI/UX principles in collaboration with stakeholders to develop technological solutions, driving 45% increase in sales.
- Built scalable backend infrastructure while optimizing frontend markup for integrity, security, and efficiency.

Education

Bachelor of Arts, History and International Studies **Imo State University** 2016 – 2020

Honors & Awards

Ever Reliable Diplomat **Nahiss** Jul 2020

- Awarded for diligence and contributions to the Department of History and International Studies.
